

Centegra Physician Care is now Northwestern Medicine Regional Medical Group. This change, reflected in your new statement effective May 1, will allow us to offer a more efficient scheduling and registration process, enhanced access to your health information via NM MyChart and the MyNM app, and more coordinated care across Northwestern Medicine.

This change will also affect how you pay your bill. Beginning with services delivered on or after May 1, you can access your statement and bill-paying options through your mobile device via a QR code or the MyNM app. Visit
